PROFILE

I am a Front-End Web Developer who is dedicated to agile/scrum workflow. I always strive to produce a high-quality and accessible user interface through good design and the rigorous testing of my code.

SKILLS

- React, Angular, Vue, jQuery
- JavaScript (+ES6), TypeScript
- HTML5, CSS3, SCSS
- Axios, Fetch, Ajax
- Bootstrap, Material, Vuetify
- Git, GitHub, GitHub Pages,
- Node.js, Express, MongoDB, PostgreSQL
- Mongoose, Sequelize, SQL
- OAuth 2.0, OpenId, Identity Federation - Auth0
- Heroku, AppSheet, AWS EC2 Virtual Server, Firebase
- VS Code, Postman, IntelliJ, Eclipse, CodePen
- Technical Writing, Paired-Programming, Agile

PROJECTS

MINTY NEWS

WINNER! MINT-BEAN HACKATHON

A fullstack news-sharing application where users can view, post and comment on articles. The front end is rendered using React and makes calls to the back via Axios. Identity federation is brokered via Auth0 - allowing users to sign in with their Google accounts. Server-side routing is written in Express/Node.js and persistence is hooked up to MongoDB via Mongoose. The deployment is cloud-based on Heroku.

NUTRI NAV

A front end, collaborative project featuring a food nutrition tracker that allows users to search for common and brand foods in order to view and compare their essential nutrients. Uses an external API as a source of the nutritional information and Firebase to save favourite foods as well as past comparisons.

EXPERIENCE

TECHCOM | QA ANALYST & UI TESTER

JAN 2019 - MAY 2019

- Planned, executed and documented Test Cases for the front UI
- Went beyond test plan to discover critical defects and deliver tested product within deadline

AK TRADING | SALES & LOGISTICS SUPPORT

APR 2017 - JAN 2018

- Collaborated with all departments to deliver a warehouse tool that support logistics
- Implemented an inventory store on AppSheet for mobile access

PEMBERTON GROUP | SALES REPRESENTATIVE

SEPT 2007 - MAR 2017

- Lead on a 15-person team - met all sales targets and construction deadlines
- Self-learned VBA to create a contract-generating program (reduced wait-times by 70%)
